What is the structural breakdown of a specific match in terms of sets, games, and (optionally) points?

DTD6001

What is the temporal order of specific match in terms of sets, games and points?

DTD6002

Rank sets/games/points by specific attributes. (e.g., ball speed, winning points of player 1, etc.)

DTD6003

Which points are critical?

DTD6004

Who won specific points, games, sets, or the match?

DTD6005

| Domain Task Scoring | Domain Task Play attributes | Domain Task Play attributes | Domain Task Play attributes | Domain Task Play attributes |
|----------------------------|------------------------------------|------------------------------------|------------------------------------|------------------------------------|

Is there any pattern to wins/losses of points/games/set?

DTD6006

How intense is the volley?

DTD6007

Are certain areas of the court more active?

DTD6008

How many "events" of specific type are in each point/game/set/match? (e.g., aces, faults, net points, etc.)

DTD6009

When did certain "events" happen? (e.g., aces, faults, net points, etc.)

DTD6010

|---|---|---|---|---|

How long was each game or set (time or other measure)?

DTD6011

What are the trajectories of the ball? Where does the ball hit?

DTD6012

Track the player's performance attributes over matches/sets/games/points. (e.g., ball speed, first-serve percentage, service games won, break points saved, second-server return points won, break points converted)

DTD6013

Identify hen specific player events happened (e.g., serves, service game won, etc.)

DTD6014

Identify patterns in a player's performance attributes over time.

DTD6015
